We perform tests of:

- panic bars and emergency pushbar exit devices
- mortice locks and surface mounted locks with keepers (including multi-point locking systems)
- hinges and door and window latches
- handle and cover door fittings (handles, knobs, handgrips) and window handles

- turn-and-tilt fittings, tilt-and-turn fittings, tilt-only and turn-only fittings for French doors and windows (including break-in resistance) and other window fittings
- door closers with adjustable closing force
- lock cores and other cylinder locks, padlocks.
