INSTITUTE

The Instytut Techniki Budowlanej conducts research works in the field of construction, with the view of their implementation and practical application. The ITB is supervised by the Ministry of Economic Development. For 75 years, thanks to the experienced staff using the most modern research methodologies and specialist measurement equipment, we support development of construction both in the country and abroad.

Our main activities:

- Research Works
 - National and International Projects
 - Building Expertise
 - Testing of Construction Products and Structures in the Accredited Group of Testing Laboratories
 - Innovation and Knowledge Dissemination
 - European Technical Assessments, National Technical Assessments and Technical Recommendations
 - Worldwide Certification.
-

ITB headquarters is located in Warsaw.

Building Research Institute has been granted certificate confirming compliance of the management systems implemented with requirements of the standards:

- *PN-EN ISO 9001:2015-10, PN-EN ISO/IEC 27001:2017-06 - [certificate number NC-3010](#).*
