Role of the ITB: national coordinator in Poland

Period of execution: 01.10.2015 – 31.03.2018

Total project value: 3 000 000 EUR

Project objective:

to contribute to the reduction of energy use in European buildings, through the exchange of knowledge and best practices in the field of energy efficiency and energy savings between all 28 European Union Member States plus Norway

Project structure:

The work of the CA EPBD IV is organised using Central Teams and functions, which include:

- 3 Core Teams: ‘New Buildings’, ‘Existing Buildings’ and ‘Certification & Quality of Inspection’;
- 3 Cross-Cutting teams: ‘Technical Elements’, ‘Policy & Implementation’ and ‘Compliance, Capacity & Impact’;
- 2 Central Functions: ‘Collaboration with other actors’ and ‘Internal & External Communication’;
- Some additional functions and supporting measures.

The first CA EPBD was launched in 2005 and came to a close in June 2007. A second phase followed immediately after the first CA EPBD, and a third phase ran from 2011 to 2015. The current CA EPBD IV runs from October 2015 to March 2018 and aims to transpose and implement the EPBD recast, Directive 2010/31/EU.
