

HORIZON 2020

CA V EPBD

Title: **5th Concerted Action on the Energy Performance of Buildings Directive support to Member States and participating countries for the implementation of the EPBD**

Acronym: **CA V EPBD**

Topic: IBA-Energy-EPBD-2018, call for proposal H2020-IBA-Energy-EPBD-2018

Entry into force of the **Grant: 28/05/2018**

Project Start Date: **01/05/2018** Project End Date: **31/10/2022**

Total Costs: 5,000,002.50 €

Maximum total grant amount: **5,000,000.0 €**

Maximum ITB's grant amount: **42 521,00 €**

Programme: [H2020-EU.3.3. - SOCIETAL CHALLENGES - Secure, clean and efficient energy](#)

Funding Scheme: [CSA - Coordination and support action](#)

General objective:

Concerted Action EPBD V aim to support the implementation of the Energy Performance in Buildings Directive through exchange of information and experience among Member States and other participating countries (Norway) with regards to the implementation of the specific European Union legislation and policy on the energy performance of buildings, and in particular with regards to the transposition and implementation of the re-cast of the EPBD (DIRECTIVE 2010/31/EU) and the on-going revision of this directive.

The specific objectives are to:

1. Enhance and structure sharing of information and experience from national implementation and promote good practice in activities required of Member States for implementation of the Energy Performance of Buildings Directive (EPBD).
2. Create favourable conditions for faster convergence of national procedures on EPBD-related matters.
3. Develop a direct link with the other two buildings-related Concerted Actions established within the IEE programme: the CA-RES, focussing on transposition and implementation of the Renewable Energy Systems Directive (DIRECTIVE 2009/28/EC); and the CA-EED, focusing on transposition and implementation of the Energy Efficiency Directive (DIRECTIVE 2012/27/EU), where National Energy Plans include initiatives towards building energy efficiency.
4. Supplement the work of the Article 26 Committee and possible ad-hoc groups on CEN (European Committee for Standardization) standards and certification exercises.
5. Establish a dialogue with the CEN in the implementation of 2nd generation standards to support the implementation of the recast EPBD and its revision.
6. Support for European Member States and Norway to use National Energy Plans to report progress on the EPBD implementation.

The CAV_EPBD will strive to result in a more harmonized approach, improved implementation and actual application of the EPBD in all the countries involved, as well as helping to disseminate best practices between the countries.

The project is co-financed by the Ministry of Education and Science under "Premia na Horyzoncie 2" instrument on the basis of contract no 441065/PnH 2/2019
