

Environmental Product Declaration Type III ITB No. 101/2020

Issuance date: 07.01.2020
Validity date: 07.01.2025

CONVENIO and XIO DESKS AND TABLES

BASIC INFORMATION

This declaration is the type III Environmental Product Declaration (EPD) based on ISO 14040 and ISO 14025. It contains the information on the impacts of the declared product on the environment. Their aspects were verified by the independent body according to ISO 14025.

ITB is the verified member
of The European Platform for EPD
program operators and LCA practitioner
www.eco-platform.org

Life cycle analysis (LCA):

A1-A3, C2-C4 and D modules in accordance with ISO 14040
(Cradle to Gate with options)

The year of preparing the EPD:
2020

Product standard:

EN 15372 (CONVENIO), EN 527-1, EN 527-2 (XIO)

Service Life:

5 years for standard product with possibility of 10 years

PCR:

ITB-PCR A

Declared unit:

1 desk / table

Reasons for performing LCA:

B2B

Representativeness:

Polish product

Owner of the EPD:

Nowy Styl Sp. z o.o.
Address: Pużaka 49, 38-400 Krosno, Poland

01/MANUFACTURER

Environmental Product Declaration Type III ITB No. 101/2020

OUR COMPANY

We are a European manufacturer of furniture solutions for office and public spaces. Our unique business model allows us to provide clients with a comprehensive interior furnishing service, based on an in-depth analysis of the specificity and needs of the client, work efficiency and work organization, ergonomics and acoustics. Thanks to the company's experience as well as technological and production facilities, each offer is made to measure.

An understanding of customers' needs, innovation and an organisational culture open to change has led us to the position of a company in Europe, with sales revenues of over 380 million euro per year. We have our own international distribution network including local sales structure in 16 countries on all major European markets and the Middle East. Hiring local managers and employees, we reach clients adjusting our offer and providing professional service.

01/MANUFACTURER

Environmental Product Declaration Type III ITB No. 101/2020

We provide furniture for new office buildings, conference centres, cinemas, stadiums, music, sports and multi-functional facilities every day. Our list of references includes multinational corporations such as DS Smith, Honeywell, Deloitte and ABB, cultural institutions such as Polish National Radio Symphony Orchestra in Katowice and the Opera in Munich, as well as the stadiums in Poland and France where European Football Championships were held in 2012 and 2016. Fans of the Football World Cup in Qatar in six out of seven stadiums now under construction for the event will also sit in our seats.

We offer a wide product portfolio adjusted to the needs and expectations of our clients. Our furniture solutions and our know-how in arranging modern offices are exhibited in the Office Inspiration Centre in Kraków, where we meet with clients, provide training and share inspiration. We also have 31 showrooms i.a. in Warsaw, London, Paris, Düsseldorf, Munich, Prague, Bratislava and Dubai.

We make our products in more than a dozen manufacturing plants equipped with cutting-edge technologies, located in Poland, Germany, France, Switzerland, Ukraine, Russia and Turkey.

This assessment applies to those located in Poland, in the region of Podkarpacie (4 plants) in Jasło and 1 in Rzepedź, with a floor area of nearly 100,000 m², including a fully automated office furniture factory opened in 2014. The company also owns Research and Development Centre located in Jasło where innovative production technologies and product solutions are constantly developed.

02/PRODUCT DESCRIPTION

Environmental Product Declaration Type III ITB No. 101/2020

FURNITURE LINES CONVENIO

Convenio line consists of mobile tables and meeting tables.

CONVENIO MOBILE TABLE

Convenio mobile table is made of foldable table top and epoxy coated steel base that consists of two legs connected by a beam.

Table top:
melamine faced chipboard, thickness 25 mm
Legs:
steel rounded profiles
Beam:
steel tube

CONVENIO MEETING TABLE

Convenio meeting table is made of fixed table top, steel tubular legs connected with steel a frame.

Table top:
melamine faced chipboard, thickness 25 mm.
Available in several dimensions.
Legs:
steel square profiles
Frame:
steel square profiles
Glides:
plastic

CONVENIO MEETING TABLE

Convenio meeting table is made fixed table top, slab-end legs connected with a linking panel and a foot bar.

Table top:
melamine faced chipboard, thickness 38 mm.
Available in several dimensions
Slab-end legs:
melamine faced chipboard, thickness 38 mm
Linking panel:
melamine faced chipboard, thickness 19 mm
Foot bar:
stainless steel tube

APPLICATIONS

Conference and meeting rooms

CERTIFICATES

GS Mark for selected configurations

02/PRODUCT DESCRIPTION

Environmental Product Declaration Type III ITB No. 101/2020

FURNITURE LINES XIO

XIO LINE CONSISTS OF DESKS AND WORKBENCHES
XIO table is made of table top and a steel base that consists of column, foot and beam.

Table top finish types:

Melamine – melamine faced chipboard, thickness 25 mm

Laminate – chipboard, thickness 25 mm.

Covered with laminate on both sides.

Veneer – chipboard, thickness 25 mm.

Covered with veneer on both sides.

Table top types: fixed, sliding

Base types: T-Base, C-Base

Base finish: beam – epoxy coating, foot – epoxy coating or chromium plating

Height adjustment types:

- Electric

- Manual – by crank or grid mechanism

- Pneumatic

- Fixed

APPLICATIONS

Office Workstations

CERTIFICATES

GS Mark for selected configurations

GENERAL RULES APPLIED

As shown in the scheme of manufacturing on page 7 Nowy Styl Sp. z o.o. manufactures products in five factories in Poland. Three of them process purchased materials such as metal, plastic and wood into components. Then, the furniture and chair factories use those components, as well as purchased components to assemble products, which are then ready for distribution. Some of the components made in the wood factory are also sold as finished products.

ALLOCATION

The allocation rules used for this EPD are based on general ITB PCR A. Production of the desks and tables CONVENIO and XIO is a line process carried out in five factories for Nowy Styl Sp. z o.o. located in Krosno and Rzepedź (Poland). Allocation was done on product mass basis. All impacts from raw materials extraction are allocated in A1 module of the LCA. 100% of impacts from the line production of Nowy Styl Sp. z o.o. were inventoried and were allocated to the desks and tables production as follows: 0.05% CONVENIO and 1.19 XIO. Utilization of packaging material was taken into consideration. Module A2 includes transport of raw materials such as wood-faced boards (MFC), wood, polymers (PA6, PE, POM, PP), steel elements, papers, additives, ancillary materials and packaging materials from their suppliers to Nowy Styl Sp. z o.o. in Krosno and in Rzepedź. Municipal wastes of factory were allocated to module A3. Energy supply was inventoried for whole factory and was allocated to the of the desks and tables CONVENIO and XIO production. Emissions in the factory are measured and were allocated to module A3.

SYSTEM LIMITS

The life cycle analysis of the declared products covers "Product Stage", A1-A3, C2, C3, C4 and D modules (Cradle to Gate with options) accordance with ISO 14040 and ITB PCR A. The details of systems limits are provided in product technical report. All materials and energy consumption inventoried in factories and were included in calculation. In the assessment, all significant parameters from gathered production data are considered, i.e. all material used per formulation, utilized thermal energy, internal fuel and electric power consumption, direct production waste, and all available emission measurements. It can be assumed that the total sum of omitted processes does not exceed 5% of all impact categories. Machines and facilities (capital goods) required for and during production are excluded, as is transportation of employees.

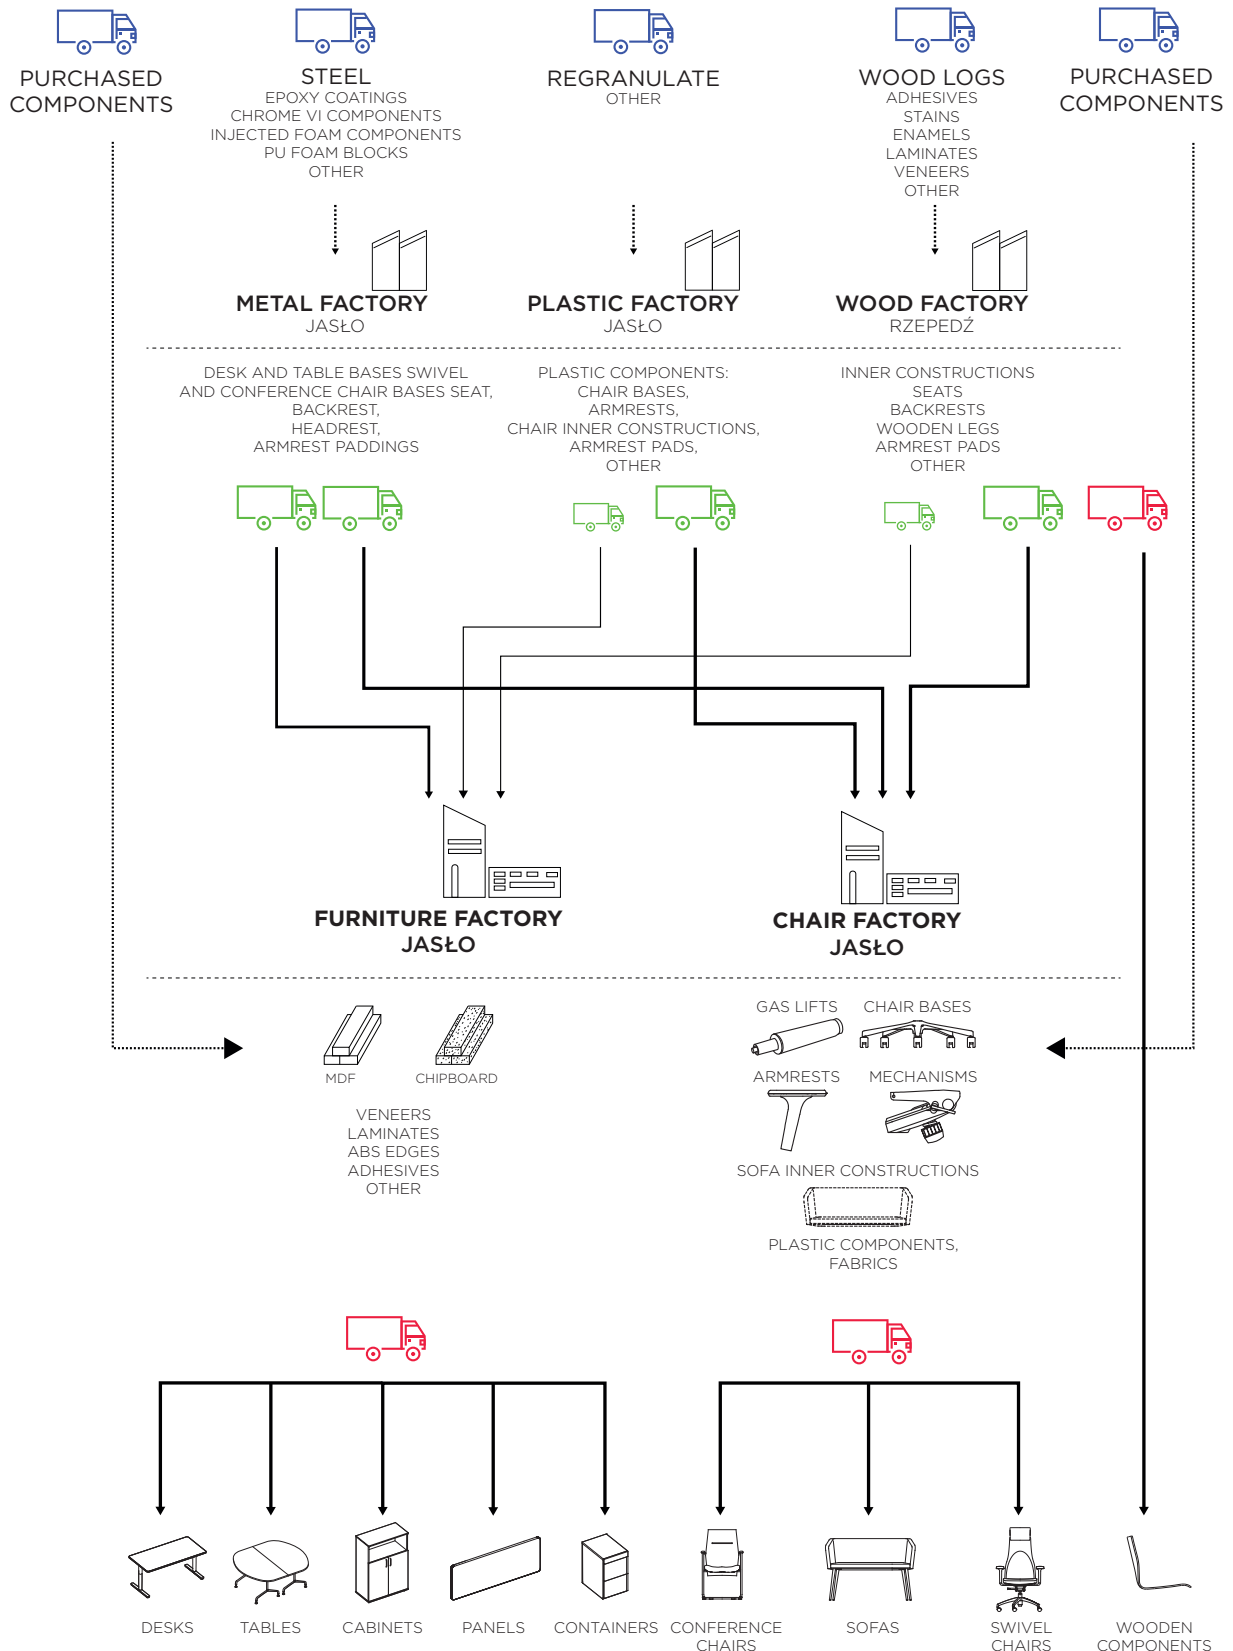

A1 AND A2 MODULES: RAW MATERIALS SUPPLY AND TRANSPORT

Wood-faced boards (MFC), wood, polymers (PA6, PE, POM, PP), steel elements, papers, additives, ancillary materials and packaging materials come from Polish and foreign suppliers. Data on transport of the different products to the manufacturing plants is collected and modelled for factory by assessor. Means of transport include trucks. For calculation purposes Polish and European fuel averages are applied.

03/LIFE CYCLE ASSESSMENT (LCA)

Environmental Product Declaration Type III ITB No. 101/2020

A3 PRODUCTION

LEGEND:

PURCHASED COMPONENTS

PRODUCED COMPONENTS

SOLD PRODUCTS

A3 PRODUCTION

END OF LIFE SCENARIOS

It is assumed that at the end of life stage, the transport distance for waste to waste processing (C3) is 50 km on > 10t loaded lorry with 50% capacity utilization and fuel consumption of 15 L per 100 km. The declared product is dismantled manually. Selectively recovered materials undergo recycling, energy recovery or landfilling according to Polish treatment practice of industrial waste while residual materials are forwarded to landfill in the form of mixed wastes. The reuse, energy recovery and recycling stage is considered beyond the system boundaries (D).

Table 1 End of life scenarios for the materials

| MATERIAL | MATERIAL RECOVERY | ENERGY RECOVERY | RECYCLING | LANDFILLING |
|----------------------------------|-------------------|-----------------|-----------|-------------|
| POLYMERS | 80% | 30% | 30% | 40% |
| ALUMINIUM | 95% | 0% | 75% | 25% |
| STEEL | 95% | 0% | 100% | 0% |
| WOOD AND WOODEN-BASED COMPONENTS | 95% | 50% | 50% | 0% |
| CARTONBOARD | 95% | 30% | 70% | 0% |

DATA COLLECTION PERIOD

The data for manufacture of the declared products refer to period between 01.01.2018 - 31.12.2018 (1 year). The life cycle assessments were prepared for Poland as reference area.

DATA QUALITY

The values determined to calculate the LCA originate from verified Nowy Styl Sp. z o.o. inventory data.

ASSUMPTIONS AND ESTIMATES

The impacts of the representative the desks and tables CONVENIO and XIO were aggregated using weighted average. Impacts were inventoried and calculated for all products of the desks and tables CONVENIO and XIO

CALCULATION RULES

LCA was done in accordance with ITB PCR A document.

DATA BASES

The data for the processes come from the following databases: Ecoinvent v.3.5, specific EPDs, ELCD, ÖKOBAUDAT, Ullmann's, ITB-Data. Specific data quality analysis was a part of external ISO 14001 audit.

03/LIFE CYCLE ASSESSMENT (LCA)

Environmental Product Declaration Type III ITB No. 101/2020

RESULTS

DECLARED UNIT

The declaration refers to declared unit (DU = 1 desk / table) - CONVENIO and XIO desk and tables lines produced by Nowy Styl Sp. z o.o.

Table 2. System boundaries for the environmental characteristic of CONVENIO and XIO desk and tables lines produced by Nowy Styl Sp. z o.o.

| PRODUCT STAGE | | | CONSTRUCTION PROCESS | | USE STAGE | | | | | | | END OF LIFE | | | | BENEFITS AND LOADS BEYOND THE SYSTEM BOUNDARY |
|---------------------|-----------|---------------|--------------------------------|-----------------------------------|-----------|-------------|--------|-------------|---------------|------------------------|-----------------------|---------------------------|-----------|------------------|----------|---|

| Environmental aspects on resource use: (DU) 1 desk / table (weight: 52,8kg*) | | | | | |
| ASPETCS | Unit | C2 | C3 | C4 | D |
| Use of renewable primary energy excluding renewable primary energy resources used as raw materials | [MJ] | INA | INA | INA | INA |
| Use of renewable primary energy resources used as raw materials | [MJ] | INA | INA | INA | INA |
| Total use of renewable primary energy resources (primary energy and primary energy resources used as raw material) | [MJ] | 2.04E-01 | 5.20E+01 | 2.54E-01 | 6.31E+00 |
| Use of non-renewable primary energy excluding non-renewable primary energy resources used as raw materials | [MJ] | INA | INA | INA | INA |
| Use of non-renewable primary energy resources used as raw materials | [MJ] | INA | INA | INA | INA |
| Total use of non renewable primary energy resources (primary energy and primary energy resources used as raw material) | [MJ] | 3.07E+00 | 1.14E+01 | 2.42E+00 | -3.49E+02 |
| Use of secondary material | [kg] | 0.00E+00 | 0.00E+00 | 0.00E+00 | 4.36E+00 |
| Use of renewable secondary fuels | [MJ] | 1.53E-01 | 0.00E+00 | 0.00E+00 | 7.11E+01 |
| Use of non-renewable secondary fuels | [MJ] | 0.00E+00 | 0.00E+00 | 0.00E+00 | 5.84E+00 |
| Use of net fresh water | [m ³] | INA | INA | INA | INA |
| Other environmental information describing waste categories: (DU) 1 desk / table (weight: 52,8kg*) | | | | | |
| WASTES | Unit | C2 | C3 | C4 | D |
| Hazardous waste disposed [kg] | [kg] | 1.82E-06 | 5.16E-02 | 1.64E-06 | -9.17E-03 |
| Non-hazardous waste disposed [kg] | [kg] | 1.69E-03 | 7.85E-01 | 3.76E-01 | -2.40E+00 |
| Radioactive waste disposed [kg] | [kg] | 0.00E+00 | 1.81E-04 | 7.29E-06 | -1.99E-02 |
| Components for re-use [kg] | [kg] | 0.00E+00 | 3.13E-01 | 0.00E+00 | 0.00E+00 |
| Materials for recycling [kg] | [kg] | 0.00E+00 | 3.07E+01 | 0.00E+00 | -2.66E-01 |
| Materials for energy recovery [kg] | [kg] | 0.00E+00 | 0.00E+00 | 0.00E+00 | 0.00E+00 |
| Exported energy MJ per energy carrier | [MJ per energy carrier] | INA | INA | INA | INA |

*Product weight includes: material, packaging waste and all packaging materials

04/VERIFICATION

Environmental Product Declaration Type III ITB No. 101/2020

The process of verification of this EPD is in accordance with ISO 14025. After verification, this EPD is valid for a 5-year-period. EPD does not have to be recalculated after 5 years, if the underlying data have not changed significantly.

The basis for LCA analysis was ISO 14040 and ITB PCR A

Independent verification corresponding to ISO 14025 (subclause 8.1.3.)

external

internal

External verification of EPD:
Ph.D. Eng. Halina Prejzner

LCA, LCI audit and input data verification:
Ph.D. Eng. Justyna Tomaszewska, j.tomaszewska@itb.pl

Verification of LCA:
Ph.D. Eng. Michał Piasecki, m.piasecki@itb.pl
